

# TO BE LAST WEEK OF COURTMARTIAL

Further Testimony by Maj. Hartman

## NEEDLESSNESS OF GERMANY BUYING SECRET.

Gave Technical Description of French and German Guns—Open Session Began With the Reading of Letter By Bruyere Describing the Abuses of the Army—Eugene Cernuschi, a New Witness, on the Stand—Dreyfus Accused of Being a Spy in Relation With the Austrian Government.

Rennes, Sept. 4.—[Special].—What will probably be the last week of the Dreyfus courtmartial, began today with the hearing of further testimony by Major Hartman in secret. Hartman gave a technical description of the French and German guns, and showed the needlessness of Germany buying the secret of "one twenty gun," from Dreyfus.

The open session began with the reading of a letter written by Lieutenant Bruyere to the war ministry, which Roger, Friday, characterized as being insulting. This letter critically described what Bruyere termed abuses in the army.

Then came what is the trump card in the trial on the part of the generals.

New Witness on the Stand.

A new witness, giving his name as Eugene Cernuschi, was introduced. He gave a letter to President Jonaus, who read it aloud, creating a great sensation. The letter described Cernuschi as a descendant of a Serbian royal family, once a lieutenant in the Austrian army, and since 1894 an Austrian political refugee.

He arrived in Paris in 1895 and met there a friend whom he had formerly known in Geneva. This man at that time was an attaché of one of the foreign embassies at Paris. He warned Cernuschi that there were four French spies in relation with the Austrian government of whom he was to beware. One of the spies he said was Dreyfus. The attaché showed Cernuschi two documents, which contained plans for the mobilization of the French army. These were received from Dreyfus. Cernuschi inquired of his informant how he obtained the documents. The attaché answered: "In France one can get anything for money and so long as Jews are in the army, we can know everything."

There was a great stir in the court room after the reading of the letter. The Dreyfusites were the most noisy among the audience and laughed derisively. The generals grinned and the judges looked serious.

M. Labori Accuses Goussé

M. Labori then accused Goussé of inventing the conversation and putting it in the secret dossier. President Jonaus, however, refused to put the question.

Cuignot, Paleologue and Billot were all confronted, and a wrangle about the dossier and its parts ensued. Labori tried to show that the conversation was forged.

Then the lawyer in the defense demanded to know if all of the dossiers were before the court. "No," said Cuignot. "There is still another one, of which you know nothing. It deals with the general subject of spying."

Labori then asked the court to examine this dossier also in secret session. The court reserved the decision.

A few unimportant witnesses were then examined and the court adjourned, after deciding to examine Cernuschi in secret session tomorrow.

Fears of a Joint Intervention.

Paris, Sept. 4.—[Special].—The government now fears a joint intervention of the powers at the last moment in an endeavor to establish the innocence of Captain Dreyfus.

President Loubet is expected in Paris today to preside at an extraordinary session of the ministry when new developments will be discussed.

It is said that Loubet favors forestalling the intervention by suggesting to the powers that they mind their own business.

Rennes, Sept. 4.—The general feeling in Rennes is that we are on the eve of a battle, and that the coming week will decide the fate of Dreyfus, the fate of the republic and the fate of the various political parties which have staked their all on the outcome. The trial depends as it progresses and upon it no one can possibly form an opinion of the outcome. The judges have properly given no hints, and a mystery surrounds the verdict. Neither Dreyfusards nor anti-Dreyfusards can be as yet sure of victory.

The number of people who will disappear from public life after the Dreyfus trial, no matter which way it goes, is fantastic and mounts into the hundreds. What is also striking is the opinion existing in the rival camps, each protests its positive belief in victory.

Train Brings Death to Three.

Cedar Grove, Wis., Sept. 4.—Three men were killed and another seriously

injured by being run down by the north-bound limited train on the Chicago & Northwestern railroad last night. The dead: AUGUST SCHERK, 48 years old, agent of the Wisconsin Telephone company, married. NICHOLAS FASS, 30 years old, blacksmith, single. WILLIAM HOLLE, 60 years old, tin-smith, married. Albert Icke, 40 years old, was internally injured, but will recover. The men were riding in a buggy when the train, which does not stop at Cedar Grove, crashed into the vehicle.

## BOERS WITHDRAW FRANCHISE OFFER

TRANSVAAL SITUATION ONE OF GREAT UNCERTAINTY.

Natives Agree to the Cape Town Conference Suggested By Chamberlain—Views of Special Correspondents in South Africa Are Alarming—Johannesburg in a Panic.

London, Sept. 4.—[Special].—The Transvaal situation is one of the greatest uncertainty. The Boers' reply to Chamberlain's note, handed to an English diplomatic agent of Pretoria, Saturday, withdraws the offer to grant a five years' franchise, but agrees to the Cape Town conference suggested by Chamberlain.

The views of the special correspondents in South Africa are alarming.

London, Sept. 4.—The correspondent of the Daily Telegraph at Pietermaritzburg, capital of Natal, says: "Things have reached such a pass that war is considered unavoidable, and the impression is that the crash will come within a few days."

The situation at Johannesburg is most anxious. The traders are unwilling to order large quantities of stores, through fear of being commandeered. Thus thousands will risk starvation in the event of war, when the railways will be cut.

The Morning Post publishes the following dispatch from its special correspondent, now in Newcastle, Natal: "I left Johannesburg on ascertaining that it was the intention of the government to arrest every one who had taken a leading part in advocating the claims of the outlanders. There were a hundred warrants out. It was an exciting journey. Boer policemen twice boarded the train."

"At every station I saw trucks loaded with commissariat stores and ammunition ready to start. The Boers declare their intention soon to push the Natal border. The chief officials at Pretoria consider war unavoidable, and they have prepared to strike before the British are ready."

The Pretoria correspondent of the Morning Post says:

"I learn that Pretoria means to fight, and that the Boers will probably rush the border as the only course promising success."

"It is believed that the mediation of Mr. Fischer, the representative of the Orange Free State, has failed."

The Cape Town correspondent of the Daily Mail says:

"The Transvaal authorities are forwarding huge quantities of Mauser ammunition from Pretoria to Bloemfontein. On Friday 1,500,000 rounds arrived at the Orange Free State capital."

## BOAT NOT HEARD FROM

No Information as to the Whereabouts of the Training Ship Monongahela.

Washington, Sept. 4.—[Special].—The navy department reports this morning that it still without information regarding the whereabouts of the training ship Monongahela.

Pope's Treasures.

It is doubtful if any one has more gold and silver than the pope. It is declared that were he to melt down all the medals, chains, vessels and other objects preserved in the Vatican, the amount of gold obtained would make more coins than the whole of the present European circulation.

Size of Families.

The average size of families in Europe: France, 3.03 members; Denmark, 3.61; Hungary, 3.70; Switzerland, 3.94; Austria and Belgium, 4.05; England, 4.03; Germany, 4.10; Sweden, 4.12; Holland, 4.22; Scotland, 4.46; Italy, 4.55; Spain, 4.65; Russia, 4.83; Ireland, 5.20.

Largest Bicycle Factory.

At Schweinfurt, Bavaria, is one of the largest of the world's manufacturing factories for bicycle ball bearing. The two factories there, belonging to one firm, turn out annually 2,000,000 gross of these little steel balls, and employ 600 men, working for a day of 10 hours' duration.

Moderate Ambition.

Beamer—What seems to be the feeling in Chicago regarding the annexation of the Philippines? Laker—Well, there is a difference. Some of us are for annexation, and there are others who think the city large enough as it is.—Life.

## INCENDIARY FIRE ALARMS STOUGHTON

TWO BARN BURN AND A HOTEL IS DAMAGED.

Twelve Horses Perish in the Flames—Tobacco Trust to Erect a Big Building in Madison—To Buy Leaf Direct From Growers—Some State News.

Stoughton, Wis., Sept. 4.—The people of this city were greatly alarmed last night by two fires which are believed to be of incendiary origin. At 10 o'clock flames were discovered in the livery barn of J. C. Johnson, which was destroyed. An hour later the livery stable of Stergem & Moen, a short distance from the other, was consumed, with twelve horses and a lot of harnesses and some buggies. The flames communicated to the Grand hotel, directly in front of the stables, and only the good work of the fire department saved the property. The loss on the Johnson stable is \$1,600; on the Stergem & Moen barns, \$1,000, and on the hotel, \$200. The fire department were on duty during the night in case of other fires.

There was a large fire about a mile from town earlier in the evening.

Tobacco Trust Depot.

Madison, Wis., Sept. 4.—The American Tobacco company will hereafter buy leaf direct from Wisconsin farmers. The trust will erect a big depot in Madison for sorting and storing its purchases.

N. P. Strause of North Carolina, a tobacco expert and head buyer of the trust, is here negotiating for a site on which to erect the building. This move will drive many small dealers out of the field. Recently the trust bought a \$1,000,000 bunch of Wisconsin leaf from jobbers, which transaction impressed it with the advantage of having agents buy direct from farmers.

Mr. Strause says the Wisconsin tobacco acreage this year increased 12,000 acres over last, and the quality of the leaf is much superior.

Husband and Wife Dead.

Lancaster, Wis., Sept. 4.—George Damm and his wife are dead from the injuries they received in a gasoline explosion on Thursday. Mrs. Damm died Friday and her husband Saturday afternoon. The shock of his wife's death is believed to have produced the fatal results in his case, as it was not supposed that his injuries would cause death. The explosion resulted from filling the gasoline magazine after the fire was lighted. Much handling of the fluid had made Mr. Damm over-confident. It was a common remark with him that gasoline was as safe as water. Mr. Damm was the principal owner of the Lancaster feed mill. Three little children are left orphans.

Paid \$46,000 in Insurance.

Oshkosh, Wis., Sept. 4.—The insurance upon the Paine Lumber company's warehouse has been adjusted. The insurance on the warehouse was \$6,000 and on the stock \$40,000. The loss on the goods was practically covered, but the warehouse was insured for only about half its value. The company says it will rebuild, and that the new structure will probably be similar to the old one.

Went Over An Embankment.

Wausau, Wis., Sept. 4.—The engine pulling the Jacob Mortenson Lumber company's logging train jumped the track near the mill Saturday night and fell down the embankment, partly into the river. Fireman Tom Campion was caught and severely injured.

Believed to Have Drowned.

Racine, Wis., Sept. 4.—Andrew Johnson, aged 22, disappeared from his home early Saturday morning, and it is believed that he either jumped or fell into the river. He had been sick with fever. At 11:15 o'clock his father gave him medicine and at 12 o'clock missed him. He had left the house hatless and shoeless. He was traced to a lumber yard near the river and that was the last seen of him. The life saving crew dragged the river several hours, but failed to recover the body.

Wisconsin Pensioners Granted.

Washington, D. C., Sept. 4.—Restoration and Increase—Dewolton W. Sheldon, Reedsburg, \$6 to \$10. Increase—Charles W. Bass, Reedsburg, \$12 to \$17; Richard N. Bervans, River Falls, \$14 to \$17. Original Widows, etc.—Pamela Olson, Mosinee, \$8; Annie E. Scranton, Madison, \$13; Anna Brown, Sheboygan, \$8.

Appleton's Valuation.

Appleton, Wis., Sept. 4.—The assessed valuation of Appleton as given by the unrevised figures of the assessors for the current year is \$3,557,800 of real estate, and \$819,970 of personal. Last year the figures were, real, \$3,508,400; personal, \$783,710.

Thrown By Bucking Broncho.

Plymouth, Wis., Sept. 4.—George Weber of North Greenfield was thrown by a bucking broncho and trampled upon. He was severely injured, but will recover.

Foot Crushed Beneath Cars.

Marshfield, Wis., Sept. 4.—William Gething, a horse trader, had his feet crushed while attempting to cross between coupled cars Saturday afternoon.

Pyrotechnic Birds.

Pyrotechnic birds are made in Nagasaki, Japan. When a light is applied to them they sail through the air, fluttering their wings and performing other bird-like antics.

## FOOTBALL SEASON OF '99 USHERED IN

FIRST "KICK OFF" TOOK PLACE AT MADISON TODAY.

John Fisher of Janesville, Appointed Graduate Manager—To Have Full Charge of the Financial End of the University Team—Most of the Old Players Back.

Madison, Sept. 4.—This morning the first "kick off" for '99 took place on the lower campus. About 9 o'clock Pat O'Dea gently touched the pigskin and the season of '99 was ushered in. Much is expected of the men. Comstock, the famous guard and center, has returned. The two Chamberlains are back. Cochens and Tugitt are trying for ends. Curtis, Bradley, Pratt and, in fact, all the old players, with the exception of Anderson are back at the call. Siefert, the big half-back, has taken on weight and will tell as a running mate. They should make a great team. But it is in O'Dea that the great reliance of the team is placed. He is punting fully ten yards further than he did last year and kicking a ball that is next to impossible to catch. If Yale's goal ever lines up within the fifty-yard speaking distance the scorer can chalk five for Wisconsin. The officials of the game have finally been picked out and are the two famous Wynn brothers of Harvard.

An innovation has taken place in the method of coaching and managing. John Fisher of Janesville, has been appointed graduate manager on a fixed salary and will have full charge of the financial end of the team. In regard to coaching, the Harvard-Yale-Princeton graduate system has been introduced. Until Sept. 15 when "Phil" King arrives the squad will be under the direction of "Jack" Richards, the old captain of '96 and '97. "Slam" Anderson will have charge of the ends; "Sonny" Pyre of the tackles and "Jimmy" Riordan and "Doc" McCarthy of the all American team of '96, and will take charge of the centers. Lyman will show the quarter how it ought to be done and Richards and O'Dea will do what looking after the backs is necessary. Temple and Andy O'Dea will look after the condition of the men. The prospects certainly point to a second breaking team.

The schedule is by far the most important ever arranged by a college team, as it will afford an opportunity for the comparison of the relative strength of the teams, not only of the middle west but of the east and Pacific slope as well. On Oct. 21, the varsity plays Yale at New Haven. A very cheap rate will be obtained, probably in the neighborhood of twenty dollars. Then on Christmas day the University of California will try conclusions. This makes the season of the team run from the first game with Lake Forest Sept. 30 to Christmas, the longest season ever attempted in the history of college football.

The outlook is certainly encouraging, and if the men are not disabled O'Dea's prediction, "Wisconsin will be champion," ought to be fulfilled.

The university has finally concluded the deal regarding the purchase of a launch. The "Johns Harvard," one of the launches used on the Charles, has come into the hands of the Athletic association, and will be in Madison in time for the fall work. All of the old crew, with one exception, will be back, and O'Dea is already getting ready for the next race on the Hudson.

Score Hurt in a Train Wreck.

New York, Sept. 4.—Twenty persons were hurt shortly after midnight in a rear-end collision on the Long Island railroad at Vanderveer Park. One may die. All the others are expected to recover. The last train from Manhattan beach for the Atlantic avenue station in Brooklyn had reached the crossing at Flatbush avenue, when the last train leaving the beach for Long Island City crashed into it. Several of the rear cars of the first train were wrecked, as were also the engine and leading cars of the express for Long Island City.

Say Incurable Are in Need.

Manila, Sept. 4.—Many Spanish prisoners are escaping from the Philippines and bringing into the American lines stories of hard treatment. They agree that the Filipinos are exceedingly short of rations and that a large section of their troops is reduced to the use of home-made black powder.

Increase in the Recruiting.

Washington, Sept. 4.—The recruiting for the new volunteer regiments is increasing, due principally to the efforts of volunteer officers recently appointed. Reports received at the war department show that 266 men were enlisted Friday, making a grand total of 2,337 men.

Cyclone Raging in Azores.

Ponta Delgada, Azores Islands, Sept. 4.—A violent cyclone is raging here, doing much damage to shipping and to property all over the island of Sao Miguel. Several lives have been lost.

Weather Science in College.

In the Ohio State university, at Columbus, students in the junior year of the course in agriculture and horticulture are required to study meteorology, with the aid of lectures, a textbook and instruction in the drawing of weather-maps, and the use of meteorological instruments. The same study is open to students in other courses who choose to take it.

The Apple's Hardness. Thousands of little apple trees, some already five inches high, have been found growing on the western shores of the islands of Mull and Iona, on the Scottish west coast, just above high water mark, and the crofters are transplanting them to their gardens. The seedlings have grown from the apples cast ashore from the Dominion line steamer Labrador, wrecked last fall. The London Daily Chronicle calls this "a practical demonstration of the hardness and vitality of apple pips," but whether the hardness consists in resisting the sea water or in enduring the climate of Scotland it does not say.

## DEWEY'S OLYMPIA NOW AT GIBRALTAR

AMERICAN WARSHIP NOISILY GREETED BY BRITISH.

Admiral Will Remain There Until Sept. 12th, When He Will Sail For New York—Naval and Army Officers Arrange to Entertain the Hero of Manila Bay.

Gibraltar, Sept. 4.—[Special].—The Olympia, with Admiral Dewey aboard, arrived here at noon.

The American warship was noisily greeted by the British warships in the harbor and by the forts with the regulation salutes, to which Dewey replied with the guns of the Olympia.

Dewey will remain here until September 12, when he will sail for New York.

The British naval and army officers have arranged to entertain him in a royal manner during his stay here.

The admiral is looking well, and apparently is enjoying good health.

## A BRUSH WITH REBELS

A Reconnoitering Party of Colonel Bell's Men Meet the Enemy Near Poric.

Manila, Sept. 4.—[Special].—A small reconnoitering party of Col. Bell's men had a rush with a rebel, out-post near Poric this morning. One American was killed and another wounded. The rebels were driven back to their lines.

## MEN FAILED TO QUIT

Threatened Street Car Strike at Philadelphia Failed to Materialize Today.

Philadelphia, Sept. 4.—[Special].—The threatened street car strike failed to materialize this morning, and more cars than usual are running today.

Cure for Excessive Perspiration.

A frequent and most annoying summer ailment is that of excessive perspiration of the feet. Sufferers from this should be careful that their boots and shoes are roomy and that they have clean stockings every day. The feet should be washed night and morning and in bad cases still more often, in salted water, or in water to which a little carbonate of soda has been added. After washing dust the feet with this powder: Washed sulphur, 30 grains; salicylic acid, 7 grains; powdered arrowroot, 4 ounces. Excessive perspiration of the body is generally an indication of weakness, and a tonic or change of air often acts beneficially. Bathing the skin with sage tea is often recommended, and this remedy has certainly the merit of simplicity.—Boston Post.

Triple Tragedy at Chicago.

Chicago, Sept. 4.—With knife, scissors, rope and revolver Henry Emde made sure of taking his life early yesterday morning at his home, 358 West Belmont avenue. Before the savage and successful attempt at self-destruction he murdered his wife and their youngest child, Hilda, a girl, 5 years old. The crime was committed without disturbing the sleep of the other two children of the family, who awoke at the usual hour to find the body of their father hanging to a door, their mother lifeless on her bed and the baby sister dying beside her. Domestic troubles led to the tragedy. The wife was to have begun divorce proceedings this week.

Admiral Sampson Will Stay.

Philadelphia, Pa., Sept. 4.—Lieutenant Commander Winslow of Rear Admiral Sampson's staff, in speaking for the admiral, absolutely denied the report that the admiral is to be relieved of the command of the North Atlantic squadron at his own request. The commander said that Admiral Sampson is enjoying good health and that he wants to stay with the squadron.

Big Black Hills Forest Fire.

Deadwood, S. D., Sept. 4.—A fierce timber fire is raging about ten miles south of this place and threatening a wide extent of country. Everything is dry as tinder and a gale is blowing. Englewood, on the Burlington railway, is threatened with destruction, and the inhabitants are trying to get their belongings to places of safety.

The Salt of the Sea.

If the ocean were dried up, all the water passing away as vapor, the amount of salt remaining would be enough to cover 5,000,000 square miles with a layer one mile thick.

## G.A.R. ENCAMPMENT AT PHILADELPHIA

Opens Today Under Favorable Auspices

ACTING COMMANDER-IN-CHIEF JOHNSON A CANDIDATE.

As a Compromise Between Col. Arthur Shaw and Major Lee Rossier, the Two Leading Aspirants—Royal Welcome Extended the Visitors—City a Blaze of Decorations—President McKinley Will Review the Great Parade Tomorrow—Sailors of Two Wars March Shoulder to Shoulder.

Philadelphia, Sept. 4.—[Special].—The G. A. R. encampment opened here today under favorable auspices. The weather is fine.

It is expected that Acting Commander-in-Chief Johnson will be urged as a compromise candidate between Colonel Arthur Shaw of Watertown, and Major Lee Rossier of St. Louis, the two leading candidates for commander-in-chief.

Philadelphia, Pa., Sept. 4.—The thirty-third annual encampment of the Grand Army of the Republic began today. The vanguard of the veterans reached this city Sunday and found a royal welcome at the hands of the citizens.

The city is crowded with strangers, while the incoming trains from all sections are bringing thousands upon thousands to help swell the throng.

The route of the veterans' parade, which takes place Tuesday, is one solid blaze of color and light. Every building has its front incased in red, white and blue. The Avenue of Fame, which extends from Walnut to Cherry street, on Broad, a distance of five blocks, with the city hall as the center, is the most magnificent piece of decoration ever attempted in this city.

The north and south fronts of the city hall will be illuminated with massive electric light pieces, thirty feet in length, representing the G. A. R. badge. Camp Sexton, near Belmont, in Fairmount park, contains 1,600 tents. The tents will shelter 10,000 veterans.

The parade will be in twelve divisions. Post No. 1, from Rockford, Ill.—the oldest post in the Grand Army—will head the line. As the veterans pass around the city hall they will be reviewed by President McKinley. There will be over 42,000 men in line.

During the encampment the election of a commander-in-chief and other officers will take place. Two candidates prominent in the field for the leading place are Albert D. Shaw of Joe Pratt post, Watertown, N. Y., and Judge Leo Rossier of St. Louis. Others are James L. Dalzell, Sixteenth Ohio; Col. W. C. Johnson of Cincinnati, acting commander-in-chief, and Brig-Gen. Charles Miller of Venango, Pa.

The naval veterans enjoyed the distinction of giving the first street parade during the encampment, which took place this afternoon, when the old salts, who fought under Farragut tramped shoulder to shoulder with the younger veterans of the Spanish war.

Next Friday the naval parade will take place. Admiral Sampson's fleet will be anchored in the Delaware river opposite the city, and a long line of vessels will pass around the fighting ships. President McKinley and cabinet officers will review the warships from the revenue cutter Gresham. Members of the commission of the imperial Russian navy, stationed here superintending the building of a battleship and a cruiser, will participate in the naval pageant.

Charges Against Evans.

Washington, Sept. 4.—The Grand Army encampment will be unusually important and interesting, as the administration will be under discussion on the charges that have been preferred against Pension Commissioner Evans, and ex-Secretary Alger will be present for vindication. Corporal Tanner and other prominent members of the Grand Army have been identified in the movement against Commissioner Evans. A committee of the organization has visited Washington, made a thorough examination of the pension office and will submit a report on its management.

Visit Gettysburg Battlefield.

Gettysburg, Pa., Sept. 4.—Three trainloads of Illinois veterans arrived Sunday and enjoyed the sights of the Gettysburg battlefield. The veterans visited the monuments erected in perpetuation of the memory of their comrades. Many expressions of pleasure were made concerning the fine condition of the battlefield and the work of the United States battlefield commission.

Preferred Water.

One sensible man in Winterport, Me., who has wanted city water put in his house, but felt that his income was hardly equal to it, this year concluded to drop the use of tobacco, after thirty years' use of the weed, and put in the water.

# MORE MONEY FOR BADGER SOLDIERS

WAR DEPARTMENT WILL PAY  
THEM \$40,000.

Represents Payment For Two Periods  
of Service From Date of Enroll-  
ment to Muster In—Also For Period  
From Date of Call For Muster Out—  
Gov. Scofield's Work.

The following from the Washington  
correspondent of the Milwaukee Sentin-  
nel, will be of interest to the members of  
late Company A, Wisconsin volunteers  
of this city:

The auditor for the war department  
today approved the payment, by addi-  
tional payrolls, of an amount which will  
aggregate between \$35,000 and \$40,000  
to the officers and enlisted men of the  
First, Second and Third regiments of  
Wisconsin volunteers which served in  
the Spanish war. The amount repre-  
sents payments covering two different  
periods in the service of these soldiers,  
about which there has been a dispute  
between the state authorities and the  
auditor for nearly a year past. The  
money will go to the individual officers  
and enlisted men, and covers the time  
from the date of enrollment to the mus-  
ter-in at Camp Harvey, and also an  
amount covering periods ranging from  
one to seven days, being payment for  
the period from the date of the call for  
muster-out of the service to the time of  
actual muster out. The state authori-  
ties, executive and military, have been  
engaged for nearly a year in efforts to  
adjust this claim.

## Gov. Scofield's Active Interest

Gov. Scofield, a few days ago, ordered  
State Agent E. G. Mullen to come here  
and take up the matter with the auditor  
with the view to reaching a solution of  
the question. Mr. Mullen conferred  
with Asst. Secretary Taylor, who aided  
to bring the matter to the favorable con-  
sideration of the auditing bureau. After  
several consultations the auditor today  
agreed to comply with the wishes of the  
state authorities and the additional pay-  
rolls will be prepared as soon as possible,  
and the signatures of the individual  
claimants obtained thereto and sent  
here to Washington. When they are  
received they will be checked up in the  
paymaster's and auditor's departments,  
and if found correct, payment will be  
made by check from the paymaster's  
office direct to the individual claimants.

## Commutation for Subsistence

In addition to the pay allowance be-  
fore muster at Camp Harvey the claim  
included commutation of subsistence for  
the same length of time, also the pay of  
such officers, and enlisted men as were  
ordered for mustering out on a certain  
date at their company home stations,  
but who owing to the inability of the  
muster-out officer and paymaster to  
reach all of the points on the day set,  
many of the companies were not mus-  
tered out until from one to seven days  
later. It was held that they were in  
the service until the date of their actual  
muster out.

Settlement will be made with these  
officers and men for their pay, subsist-  
ence, clothing, etc.

## Three Thousand Men Interested.

Three thousand men will share in the  
payments on these additional payrolls,  
which will be made out by the state.  
In order to assist in the settle-  
ment of these individual  
claims, the legislature, at its  
last session, authorized the adjutant  
general to prepare and file the individual  
claims for the benefit of the officers and  
men of the Wisconsin regiments and an  
agent of the state was sent to Camp  
Douglas, and many of the claims were  
prepared for filing during the encamp-  
ment of the three regiments. The officers  
and enlisted men were anxious to  
ascertain how long it would be after the  
filing of these individual claims before  
they could expect that the matter would  
be taken up and closed and this resulted  
in the action by Gov. Scofield in push-  
ing the matter to a successful conclu-  
sion. This decision will enable the sol-  
diers to obtain their pay fully a year  
earlier than would be the case by pro-  
secution of individual claims of which there  
are about 75,000 on file in the depart-  
ment.

# BELOIT YOUNG MAN ARRESTED

Has Evaded Paying Fare—Finds Friends  
in Springfield—Wants Education.

The Springfield (Ill.) Republican of  
last Saturday, contained the following  
account of the arrest of a Line City  
young man:

"Harry B. Bradeson, the young man  
arrested Thursday noon charged with  
evading the payment of railroad fare on  
the Boston and Albany railroad, was  
arraigned in the police court yesterday  
for that offense. He pleaded guilty and  
was fined five dollars, which was paid by  
a court official who had heard the young  
man's story. Bradeson, who is about  
twenty years of age, lives in  
Beloit, Wis. He had been working  
hard to secure an education and has  
been saving his money to use in paying  
his way through an educational institu-  
tion. He heard of the Mount Hermon  
school at Northfield and decided to go  
there, but he had not sufficient funds to  
pay his fare to Northfield and have any-  
thing left for expenses while there. He  
therefore determined to save his care-  
fare by walking and jumping freight  
trains. He sent all his funds in the  
form of a draft to the principal of the  
school at Mount Hermon and shipped his  
trunk to Greenfield. He dressed in  
old clothes well suited to his life as a  
passenger on freight trains, intending  
to change when he got his trunk at  
Greenfield. He left Cleveland Monday,  
and reached Pittsfield, Thursday. There  
he boarded the Chicago special, stowing  
himself away at the front of the bag-  
gage car. He was seen by a trainman  
and placed under arrest when he reached  
this city. He has lived principally on  
apples while on the road. The young  
man talks well and has every appearance  
of being what he says he is. Steps were  
taken to send him to Mount Hermon."

## LARGEST TRAIN EVER HAULED

Eighty Cars Pulled from Janesville to  
Oshkosh Yesterday.

In the last few days our attention has  
many times been called to railroad af-  
fairs. Yesterday a train of eighty  
cars was hauled from Janesville to Osh-  
kosh, over the Northwestern line. This  
was the largest and heaviest train ever  
hailed over that road, and was in charge  
of Conductor R. E. Clark with Engineer  
Spohn on engine 32 and Engineer Pruner  
on engine 53. Both engines are what  
are termed the eighteen inch  
or, as commonly known by railroad  
men, hogs.

Another remarkable run was made  
yesterday from Oshkosh to Appleton  
Junction, a distance of twenty miles,  
with sixty-one cars in charge of Con-  
ductor Charles Ward and pulled by an  
engine in charge of Engineer G. E.  
Gaul. It is very seldom that such  
heavy trains are seen around the local  
yard and the feat is an exceptional one  
on any railroad.

## Chronic Diarrhoea Cured

This is to certify that I have had  
chronic diarrhoea ever since the war. I  
got so weak I could hardly walk or do  
anything. One bottle of Chamberlain's  
Colic, Cholera and Diarrhoea Remedy  
cured me sound and well.

J. R. GIBBS, Fincastle, Va.  
I had chronic diarrhoea for twelve  
years. Three bottles of Chamberlain's  
Colic, Cholera and Diarrhoea Remedy  
cured me.

S. L. SHAYER, Fincastle, Va.  
Both Mr. Gibbs and Mr. Shayer are  
prominent farmers and reside near Fin-  
castle, Va. They procured the remedy  
from Mr. W. E. Casper, a druggist of  
that place, who is well acquainted with  
them and will vouch for the truth of  
their statements. For sale by People's  
Drug Co., corner Main and Milwaukee  
streets.

## If the Baby Be Cutting Teeth

Be sure and use the old and well tried remedy  
Mrs. Winslow's Soothing Syrup, for children  
teething. It soothes the child, softens the gums,  
allays all pain, cures wind colic, and is the best  
remedy for diarrhoea. Twenty-five cents a bot-  
tle.

## TO ATTEND A FLAG RAISING

Local G. A. R. Post Will Visit Fulton  
Next Wednesday

The G. A. R. Post of this city, has  
accepted an invitation to attend a flag  
raising at Fulton, next Wednesday,  
Sept. 6. Carriages will be provided by  
the Fulton people, and will leave Post  
hall at 12:30 for Fulton. The people of  
Fulton have made preparations for a  
grand, good time, and those from here  
contemplating going, are anticipating a  
pleasant day.

## American Horses in London.

Few of the "million" passengers or  
more who make their daily journey  
in a London bus or street car know  
that the horses which draw them are  
nearly always American or Canadian.  
Great Britain, the "horses' country"  
in the world, buys more than 20,000  
horses from the United States every  
year. Nearly all of these are heavy  
draught horses.

# BURGLAR CONTINUES TO MAKE HIS ROUNDS

THIRD WARD HOME OF MRS.  
JAMES SIMPSON ENTERED.

Gained Entrance to the House Saturday  
Night While the Family Was  
Away—Discovery Not Made Until  
Yesterday Morning—Neighbors See  
Stranger in Yard.

And still the burglar continues to  
make his visits to the people of this  
city. His last visit was made Saturday  
night to the Second ward home of Mrs.  
James Simpson. The family were away  
Saturday night and the visit of the  
burglar was not discovered until the  
next morning.

The visitor had gained admittance at  
the side of the house by removing the  
screen and placing it inside the room.  
He had evidently entered this room, but  
there was nothing of value to him to  
take and he could get no further into  
the house because of locked doors.  
Nothing was missing from the house,  
although it was plain to see that he had  
been in that one room.

Fred Holt and his brother, who reside  
across the street, saw some person com-  
ing out of the yard about eleven o'clock,  
and made the remark that he tallied  
with the description of the burglar seen  
by Chief Hogan, but nothing further  
was heard of it until the discovery was  
made in the morning. It being so long  
after the discovery was made, the family  
did not notify the police, and no search  
was made for the offender.

The burglar, whoever he is, is not  
making a very good thing off the people  
of Janesville, as the only article of any  
value stolen, was the stud from Hon.  
John Winans.

## A ROCK RIVER FAMILY REUNION

daughter of Milton; Mr. and Mrs. West  
Stockman of Milton Junction; Mary  
Flarry of Milton; Ida Newman of Mil-  
ton; Lena Martin of Rock River; Maud  
Hudson of Milton. Inez Brightman  
went Tuesday to Whitewater to attend  
the Normal school. Clifford Bond,  
Pearl Bond and Roy Vincent have new  
bicycles. Misses Maud and Jennie  
Rose visited in Harmony, Wednesday.  
Archib Hadden of Milton Junction, was  
a caller at Lon Atherton's, Sunday. A  
fine monument was erected by H. C.  
Dreyer of Janesville, on the Saunders lot  
in the Rock River cemetery, this week.  
John Stillman of Albion, spent Sunday  
with his sister, Mrs. Harriett Crandall.  
H. C. Maycott is shingling his house.  
Etta Garthwait of Milton Junction, and  
Jessie Burges of Janesville, were callers  
at Kittie Vincent's, Tuesday. Lottie  
Gray began her school in the Burdick  
district, Monday. Frank Wescott of  
Albion, was a caller at N. M. Rose's,  
Friday. Mrs. Electa Buob started for  
her home in Dakota, last Tuesday, after  
spending nearly two years with friends  
and relatives at this place. Mrs. Alta  
Young of Edgerton, and Mrs. James  
Kelly and daughter Alice of Albion,  
spent Wednesday at H. C. Maycott's.  
Birdie Davis of Milton, is the guest of  
her aunt, Mrs. Tillie Vincent.

## GO TO NEW ORLEANS BYBOAT

Robert J. Hasken and Harry R. Wheeler  
Left Saturday Evening.

Robert J. Hasken and Harry R.  
Wheeler of this city, left last Saturday  
evening in a row boat for New Orleans.  
They expect to be absent five or six  
months, and will camp along the river  
on the way down, stopping at all the  
principal points of interest. Their boat  
is eighteen feet long, and the arrange-  
ment is complete for a trip of this kind.  
They have a tent, which they will pitch  
wherever night overtakes them. They  
anticipate a pleasant journey, and the  
indications are that they will not be dis-  
appointed.

# A NEW INDUSTRY FOR BELOIT

A Stone Cutting Plant Will Soon Be  
Erected There.

The Beloit Free Press says: William  
D. Lewis of Madison, an expert stone  
cutter, who has been employed on the  
Milwaukee railroad depot, has decided to  
put a complete stone cutting outfit in  
Beloit, and has left for Chicago to pur-  
chase his machinery.

Mr. Lewis is one of the finest stone  
mechanics in the west, and has a wide  
reputation for high class work. He did  
the stone cutting at the new state library  
at Madison, which is the admiration of  
visitors to the capital.

Mr. Lewis has visited hundreds of  
cities in the country and says he was  
never in one in which he wanted to lo-  
cate so badly as Beloit. It is his inten-  
tion to erect a building on a lot secured  
on South-Race street, near the Milwaukee  
tracks, and build a modern stone cutting  
plant, which will be operated by elec-  
tricity.

There are few stone cutting plants  
outside of the large cities, but Mr.  
Lewis expects to get a great deal of  
work in near-by cities so that the work  
in Beloit will be made profitable.

## NEW STONE CRUSHING PLANT

Work at the Barron Quarry Progressing  
Rapidly

Work on the city's new stone crush-  
ing plant at the Barron quarry is pro-  
gressing rapidly and it will be ready for  
business several days sooner than origi-  
nally intended.

The boiler arrived Saturday morning  
and Drayman Eugene Fish moved it  
out to the quarry during the day. The  
engine came several days ago, and to-  
gether with the boiler will be set up at  
once.

The buildings are nearly finished and  
will be ready to receive the machinery  
this week. The crusher itself arrived  
this morning, which completes the  
equipment of the plant. A member of  
the committee in charge of the work  
says everything will be ready for a test  
in a few days and that within ten days  
the plant will be in full operation.

## MR. EVANS HAD A CLOSE CALL

Janesville Man Just Left the Coliseum  
Before the Crash.

L. D. Evans of this city, came so  
near being caught in the collapse of the  
Coliseum at Chicago, that it makes his  
hair stand on end to even relate his ex-  
perience.

Accompanied by his mother from  
Detroit, Mich., he was viewing the  
sights of the building. They finished  
their tour of observation and had only  
proceeded a block away when the crash  
came.

Mr. Evans relates stories of that sad  
affair that are indeed thrilling. He  
viewed the ruins after the collapse and  
witnessed the rescue work as it pro-  
gressed. He tells of one of the victims  
whose head was crushed as flat as a  
pancake, of another whose head was se-  
vered from the body, and many more  
such heart-rending sights, as a result of  
that awful disaster.

## build the house around the bath room.

SO SOME PEOPLE  
say. The modern idea  
in building is to have  
the bath room and plum-  
bing convenient and nice, if  
you are obliged to cut off  
on something else.

## That Double System of Plumbing....

we are putting in many  
houses, is a convenience  
well worth looking into. It  
can be placed in any house.  
With it you have soft wa-  
ter for the bath and lava-  
tory purposes and with the  
turning of a valve you can run city water,  
through the pipes. A motor elevates the  
soft water automatically. We would be  
pleased to explain it more fully to you.

# Golf Plaids.

Choice effects  
in them will  
certainly be  
scarce a little  
later. We  
bought liberally of these  
goods early in the year  
and judging by the way  
we have sold them since  
August 1st, late buyers  
will not have the beau-  
tiful assortment that  
we now show to select  
from. These goods are  
plain one side, the other  
a lovely plaid, swell  
combinations.

## Plain Both Sides--Of these we show excellent values at \$1.25 and \$1.50. One side a small check; goods of this nature are selling freely at \$1.50 and \$2.00. Call and feed your eyes on this remarkable col- lection.

## Wool Poplin.

Look where  
you will you  
cannot find  
such dress  
goods for the  
money. A lucky July pur-  
chase put 20 pieces of  
wool poplins in our hands  
at just about half price.  
The styles are plain and  
iridescent, the quality ex-  
cellent; width 44 inches;  
really worth \$1.50, but  
here only \$1.00.

30, \$2.00; 31 to 36, \$2.25;  
37 to 43, \$2.50. White,  
drab and black.

## Broadcloth The At \$1.00 best is none too good

for our customers. We  
are ever watching out for  
good things, and in this  
50-inch broadcloth at  
\$1 we have the very best  
value that was obtainable.  
We say "was obtainable"  
because we would not  
have them now [if we had  
not placed our order last  
February for 50 pieces.  
The color line comprises  
about 35 shades.

## Spotless Steam Sponging.

Your dress

## PLANS FOR OUR NEW LANDS.

President Said to Have Determined  
on His Future Course.

PEACE MUST BE ESTABLISHED.

After the Complete Subjugation of All  
Who Oppose Our Authority a Liberal  
Form of Civil Government Will Be  
Granted.

Washington, Sept. 4.—There is good authority for the statement that the president has returned to Washington with these ideas uppermost in mind as to his future course in relation to the new dependencies.

The Philippines—Civil government by three commissioners to supplant military rule immediately after the rebellion is crushed.

Cuba—Continued military control until it is determined by means of a general election whether the inhabitants want independence or annexation. If independence, the new government elected will be recognized by the United States, and will be given encouragement at every opportunity to establish its stability. If annexation, the president will be governed by the sentiment of American citizens as it may then exist.

Porto Rico—Civil government of the territorial form similar to that which prevails in Arizona.

Hawaii—Territorial form of government as recommended by the Hawaiian commission and as provided for in a measure now pending in congress.

Future discussions with his cabinet may change somewhat the president's views as to the form of civil government best suited to meet the situation, but at present the commission plan predominates. Professor Schurman, president of the peace commission, is understood to favor this kind of control.

The plan under consideration contemplates three commissioners—one an army officer, to have charge of fiscal affairs; another a naval officer, to have control of customs, and the third a leading Filipino, of legal experience, to look after the judiciary; all three to be appointed by the president and confirmed by the senate. Further details contemplate giving the Filipinos a voice in all municipal affairs and the most liberal government possible.

## ARE NO NEW CASES OF FEVER.

Situation at New Orleans Outlined in a  
Telegram to Texas.

New Orleans, Sept. 4.—The fever situation here is briefly outlined in the telegram which President Southeron of the Louisiana board of health sent Sunday to Health Officer Blunt of Texas. It reads:

"Alabama has not quarantined against freight. No new cases here in last three days. Come and see for yourself. Wire when you come."

## Money Only May Free Spaniards.

Madrid, Sept. 4.—Tomas Arejola, chairman of the Madrid Filipino committee, declares that the Spanish prisoners will be freed only for a cash consideration, and he places the amount at \$7,000,000, which he asserts will serve as "an offset to what the monks have stolen from the Filipinos." Senator Arejola advises the Spanish government to act promptly, "for the Filipinos cannot hold themselves responsible for the safety of the prisoners when the campaign against the Americans opens in November."

## Will Build Mills in America.

Bremen, Sept. 4.—The weavers' syndicate of Gera, principality of Reuss, is planning the erection of large mills in America, following the example of Bruhms' Sons of Gera, whose 200-horsepower factory is now building in the United States. The Leipzig Tageblatt objects to this extension of the syndicate's operations, urging that it will but strengthen the American weaving industry and aid in building up foreign competition with the fatherland.

## Admiral Watson Is Very Ill.

Boston, Mass., Sept. 4.—A letter received here from an officer with Admiral Watson of Manila, dated July 26, says that the admiral is still very ill, no improvement in his condition having been shown since the 11th, the date of the accident which threatened to destroy his launch, and to which the attack of illness is attributed. It is understood the admiral will ask to be at once relieved—in fact, that his successor has been chosen.

## Schurman at the White House.

Washington, Sept. 4.—President Schurman of the Philippine commission was in conference for several hours Sunday with Secretary Hay, going over matters in connection with the work of that body. Mr. Schurman expects to remain in the city for a short time, as he desires to have a conference with Secretary Root when the latter returns to the city.

## Jimenez Going to Porto Plata.

Cape Haitien, Sept. 4.—Juan Isidro Jimenez, the revolutionary aspirant to the presidency of the republic of Santo Domingo, left Cap-Haitien Saturday on board the George S. Crooks for Baracoa, from which point he will proceed to Port au Prince and then to Porto Plata, where he is impatiently awaited.

## Fear of Plague Disappears.

Madrid, Sept. 4.—It is becoming so evident that the bubonic plague will be stamped out before it can spread beyond the limits of Oporto that Spanish fears of an epidemic are in large measure allayed. Medical men here believe that the time for alarm in Spain has

## Age of an Oyster.

He who wishes may find out the exact age of an oyster, though he has not the tell-tale evidence in teeth. The lines in the groove of the hinge of the shell tell the whole story, each line representing a year. An oyster is of age at a year—that is, he is old enough to vote, take care of a family and go to market. Going to market is a disastrous undertaking, for a 4-year-old oyster is particularly palatable. By this it must not be supposed that after an oyster has passed the four-year period and has five, six, or even ten wrinkles on his shell he is a back number. Indeed, there are records of oysters being eaten just after celebrating their thirteenth birthday, and in most cases they formed a delicious meal. Thirty is an unusual age for an oyster to attain, because few are given an opportunity to live so long. It is left to enjoy life in his own way, it is quite probable that the oyster would become an octogenarian, or even centenarian. —Minneapolis Journal.

## Gold Product of the Rand.

Advices just come to hand show the gold production of the Witwatersrand district of South Africa to be steadily enlarging. The output for June amounted to 445,763 ounces, valued at nearly \$9,000,000, representing the largest total of any month in the history of the district. It compares with a product in June of last year of 314,640 ounces and in the same month of 1897 of 251,499 ounces. Since June, 1896, the output has much more than doubled. The following statement of the output for the six months ending with June for a term of years shows the continuous increase: 1890, 2,585,865 ounces; 1891, 1,961,663 ounces; 1892, 1,388,431 ounces; 1893, 1,054,503 ounces.

## Our Production of Copper.

From the Engineering and Mining Journal: The copper production of the United States in the year 1898 was the largest ever recorded in a single year, or a total of 535,900,282 pounds of fine copper, which was an increase over 1897 of 34,529,937 pounds, or 6.8 per cent. The exports for the year amounted to 299,765,054 pounds, or about 55 per cent of the total production. During the current year the production has increased but very slightly, while the consumption has grown on a large scale, and an extraordinary increase in prices has resulted.

## Hand Organs as Civilizers.

Congo Free State negroes are being Christianized by a hand organ. Capt. Becker, a Free State official, thoughtfully took one with him to his post, and finding that the natives enjoyed the music, and being also desirous that they should marry in Christian fashion, he announced that the organ would be played at every Christian wedding. The result was that weddings took place almost daily, and it was discovered that many couples got married more than once in order to procure the music.

## America's Women Wage Earners.

There are said to be 4,000,000 women wage-earners in this country; 250,000 are teachers, besides 35,000 music teachers. There are 10,000 artists, 2,725 authors, 1,145 clergymen, 888 newspaper women, 279 detectives, 208 lawyers and 40 chemists. Two Cincinnati women make \$15,000 a year out of a restaurant, and the woman manager of a California insurance company receives a salary of \$10,000.

## Some More Statistics.

A man with a penchant for computation has calculated that when we are at rest we consume 500 cubic inches of air a minute. If we walk at the rate of one mile an hour we use 800; two miles, 1,000; three miles, 1,600; four miles, 2,300. If we start out and run six miles an hour we consume 3,000 cubic inches of air during every minute of the time.

## Rush Time Photos.

"An apparatus has been devised for automatically photographing people as they enter shops and other places. As you enter you step upon a plate which operates this new camera, the film is exposed and your picture is secured. Where and when necessary a flash light is also caused by stepping on the plate."

## A Village of Graves.

A few miles from Ningpang-po, a town of northern China, is a large village composed of graves. It is a deserted burial ground, which has been taken advantage of by a clan of beggars and thieves, who eat, sleep and make merry in their grewsome surroundings. There are several similar towns in the celestial empire.

## HARDENING PLASTER OF PARIS

Process by Which the Usefulness of the Composition May be Enhanced.

"These plaster casts are very successful as a rule," said a lover of fine art in the statuary gallery at the Art Institute the other day, "but unfortunately they cannot be long preserved. The humid weather, of which we have a superabundance in this locality, will destroy them in many years have passed." This is the general complaint. Recently, however, a patent has been taken out in Germany for the treatment of articles of plaster of Paris with an aqueous solution of ammonium borate, for the purpose of hardening them and rendering them insoluble in water. The process referred to is said to give results decidedly superior to anything that has heretofore been proposed. The hardening liquid may either be mingled with the plaster in the act of molding or may be applied on the surface of the finished casts with a brush. The solution is prepared by dissolving boric acid in warm water and adding thereto sufficient ammonia to form the borate, which remains in the solution. The manner of using the solution is thus described: The saturation of the gypsum or painting of the plaster of Paris is carried out in the cold. The objects are subsequently rinsed off and dried. The surface becomes very hard, after two days and insoluble in water, while the induration in the interior advances more slowly. By means of the fluid described gypsum floors can be hardened and rendered more durable and impervious to the influence of the weather. Saturating with ammonium borate is said to be especially useful on the exterior walls of buildings, barracks, etc.; on the latter, because experiments have proved an antiseptic action of the liquid.

## The World's Heathens.

The heathen still outnumber all the various religious bodies put together. According to the latest statistics, there are in the world 143,000,000 Protestants, 98,000,000 followers of the Greek church, 230,000,000 Roman Catholics, and 176,000,000 Mohammedans. As the population of the world is estimated at 1,500,000,000, and adding to the adherents of the four great religions of the world other 53,000,000 for the thousands and one beliefs with comparatively few followers, there are left 800,000,000 people who worship strange gods or practice curious rites in lieu of religion, and who come within the definition of the "heathen," for whose conversion large sums are collected year after year, amongst the churches throughout the civilized world.

## Chas. H. Davis' Generous Act.

Charles H. Davis, one of the wealthy citizens of Worcester, Mass., recently presented to his coachman, Otis L. Chase, and two maid servants 100 shares of Norwich and Worcester stock, valued at over \$21,000. He called them into his library one day and told them that he had bequeathed them \$7,000 each in his will, but, recognizing the fact that such instruments were liable to legal controversy, which might prevent them from receiving the bequests for some time after the will was probated, he had decided to present them that amount. He then tore up the will and gave them the stock.

## A New Idea in Banking.

"I'd like to speak to the cashier." "He's busy." "It will only take a minute. What's he doing?" "Posting up the bank's books." "But don't you have a bookkeeper for that sort of work?" "We have bookkeepers, but they have got their own business to attend to." "That's strange. What will the cashier do when the books are written up?" "Stick them in his breast pocket."

## All People Know

Whether they have had satisfaction from the Shoes that they have been wearing, and a greater number of the people of

Janesville have purchased of us. You know that our Shoes always wear longer and keep their shape better than Shoes purchased at many of the so-called "Cheap-John" places. We will leave it with you to decide, but it seems the most sensible to purchase where you know the Shoes are right rather than take chances on old odd jobs of other days. We handle nothing but new factory goods and guarantee every pair.

That means that we take the chances, and not you. We carry the largest assortment in Southern Wisconsin and can properly fit your feet no matter what the shape and give you the style of Shoe that you want.

We were never better prepared to meet the wants of the people of Janesville than now. Our Fall styles are now here and we invite your inspection, whether you want to buy now or not. Always pleased to show you.

## WINE OF CARDUI

## Woman Knows Woman.

ZURICH, KAN., Jan. 31.  
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.  
MRS. V. M. BOISVERT.

## Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it?

They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

## ALL CLASSES REPRESENTED

All classes of men are represented in the new Thirtieth regiment which will leave Chicago for San Francisco en route for the Philippines on Sept. 5. Col. Cornelius Gardner, who commands the regiment, says it is made up of fifty officers and 1,309 enlisted men. The Thirtieth was practically enlisted in its full strength Aug. 5, and is made up, as far as trades and professions are concerned, as follows:

Barbers.....24	Bridge builders.....3
Butchers.....12	Wagon makers.....1
Carpenters.....54	Miners.....1
Cooks.....41	Physicians.....3
Bakers.....18	Schoolteachers.....3
Teamsters.....64	Salesmen.....4

Firemen (steam).....20	Photographers.....2
Machinists.....20	Clerks.....9
Plumbers.....13	Stenographers.....3
Clerks (office).....92	Stenographers.....3
Students.....8	Farmers.....231
Mechanics.....6	Laborers.....582
Harness makers.....3	

Of these Illinois furnished 700 recruits; Michigan 484, Wisconsin 41, Indiana 52 and other places 10.

Edward Atkinson will find cold comfort in these facts. They show that in all walks of life, the true American is loyal to the flag, and ready now, as in the past, to give up his life in its defense.

One of the captains in the First Nebraska regiment has refused the fusion nomination in Bryan's county for sheriff because he favors holding the Philippines, a doctrine that the Bryanites do not uphold. It is said to be more than likely, however, that the people will insist upon running the captain, anyway and let the Bryanites howl.

Brooklyn Eagle: Mr. Bryan is convinced "prosperity will not blind the people to their needs." Neither will it blind them to the benefits of prosperity. People are absurdly fond of prosperity, fond of its causes, fond of its consequences—just as they were not fond of the absence of it when Mr. Bryan ran in 1896.

The Iowa democrats began their campaign at Davenport today, the opening being the earliest in years. "The boys" evidently "see their finish," but prefer to fill the air with fireworks to blot out the discouraging picture.

Saturday was the hottest day of the year, according to the Chicago papers, and several Janesville men will bear out the statement—they were never warmer.

The fact that Aguinaldo is using Krupp guns, raises a time honored and much mooted question, "Where did he get it?"

The Dreyfus case is still the most popular continuous performance now before the public.

Two cents, however, will still carry a letter to any part of these United States.

"The Case of Captain Carter" bids fair to be interesting reading, also.

## DIAMONDS OF VARIOUS HUES.

Most of Them Are Colorless. But Some Are Red and Black.

Although thousands of men and women in Chicago wear diamonds, at least on occasions if not constantly, few know much about the precious gems they value so highly. While the largest number of diamonds are white, a clear, colorless, transparent stone is rarer than might be supposed. There are also red, blue, green, yellow, brown, black and pink ones. Heat often changes the color and after awhile the acquired hue becomes permanent. Yellow diamonds perhaps afford the greatest variety of shades. Some of them surpass any other gem of that color. Specimens of canary colored diamonds are quite common. If the gem has a rose-colored tint it is very valuable, while red tints, surpassing the ruby, and considered the most beautiful of all precious gems, are exceedingly rare. A few varieties are on record. One weighing ten carats was bought by Emperor Paul of Russia for \$100,000. A cinnamon, or brown, stone is undesirable, as it is seldom pure. A black diamond is nearly as scarce as a red one. Blue diamonds rank next to red ones in variety and beauty. Those of a dark blue color, resembling sapphires, are handsome gems, differing only from the sapphires in quality and the beautiful play of colors peculiar to the diamond. The only real blue stones are found in the mines of India. Besides the Bismarck and Hope diamonds, there are only two others in the world that are properly called blue diamonds. The green varieties are not as rare as the blue, black, red and rose-colored species, yet a grass-green or fine emerald color is scarce. When it does occur it is more brilliant than the finest emerald. There are several varieties of green-tinted diamonds at the museum of natural history in Paris, but the best known specimen is at Dresden and is considered one of the five paragons of the world among gems—Chicago Chronicle.

**A Queer Kind of Climbing Plant.**  
A queer kind of climbing plant has lately been found in Brazil, where it grows in the open air. Its flowers have flat, horny plates, just above the nectar cups in the center of the blossom, and which are called pinching bodies. When an insect thrusts its sucker into the nectar the plates pinch it fast, and when it leaves the insect must either carry off the center of the flower or leave its sucker behind. In the former case the pollen is likely to reach and fertilize another flower; in the latter, the poor insect dies. Sometimes the legs, as well as the noses, of insects are found sticking in the flowers. Only the bumble bee seems to be strong enough always to get away whole.

## LABOR DAY MARKED IN A PLEASANT WAY

### ANNUAL CELEBRATION AT CRYSTAL SPRINGS.

Mayors Simon Smith of Beloit, and Victor P. Richardson of this City, Deliver Appropriate Addresses—Street Pageant This Morning—Sports of All Kinds.

Once more the labor organizations of Janesville and their sympathizers celebrate Labor day in a fitting manner.

The celebration as being held today is under the auspices of the Federated Trades council. Crystal Springs park has been the scene of a monster picnic this afternoon, an unusually large crowd being in attendance. The weather is all that could be desired, the change in the atmosphere last evening making the day an ideal one. A majority of the factories and business places of the city were closed during the day and the laboring men turned out in full force.

The different labor organizations formed at the corner of Academy and West Milwaukee street and at 11 o'clock a street parade was reviewed by the throngs of people along the streets. The line of march was as follows: East on Milwaukee street to Main to Court; east on Court to Bluff street to Milwaukee street; west on Milwaukee to Main; north on Main to boat landing. Geo. S. Paris acted as marshal of the day. The parade was made up in the following order:

Marshal of the Day.  
Beloit City Band.  
Machinists' Union, Beloit.  
Moulders' Union, Beloit.  
Typographical Union, Beloit.  
Workmen From Beloit in Sympathy With Organized Labor.  
Impressed Band.  
Fire Department.  
Painters' Union.  
Typographical Union.  
Barbers' Union.  
Tailors' Union.  
Cigar-makers' Union.

The printers, barbers and painters belonging to the local unions appeared in the parade with costume, and made a very neat appearance. The printers wore long linen dusters, crush hats, and carried canes to which were attached a bow of ribbon. The painters wore duck suits of white, and the barbers, well—they were just too cute for anything, appearing in black suits and plug hats, carrying canes.

At the conclusion of the parade the Beloit City band accompanied the delegation up the river to the scene of the day's festivities, the Imperial band remaining until after dinner.

Mayor Simon Smith of Beloit, and Mayor Victor P. Richardson of this city, were at the Springs in the afternoon and delivered brief and appropriate addresses, appropriate to the occasion.

An excellent program of games were given during the afternoon at the Springs and were the means of drawing many contestants. This evening a dance will be given at the park and Smith's orchestra will play. The feature of the evening will be a cake walk for two cash prizes.

### JOINS THE GREAT MAJORITY.

Ruth Millington.  
Mrs. E. Millington received the sad intelligence on August 31 from Allen Grove, Wis., of the death of Ruth, the eighteen-months-old daughter of Mrs. E. D. Millington, which passed into the shadows on that day, after an illness of three months' duration. The funeral services were held at the house there on Friday, September 1, at 2:30 o'clock p. m., and the remains were taken to Clinton for interment.

Mabel F. Shannon.  
Mabel F. Shannon passed away this morning at 5 o'clock at the home of her sister, Mrs. David Herron, 406 South High street, after a long illness from that dread disease, consumption. Miss Shannon was twenty years of age and was an extremely bright young lady who was admired by a large circle of friends who join in extending sympathy to the grief-stricken relatives. The funeral will be held tomorrow afternoon.

Double-Eyed Fish.  
The anableps, or star-gazer, a fish of the cyprinodont family, found in the rivers of Guiana, Surinam and Brazil, has each of its eyes divided into an upper and a lower portion by an opaque horizontal line. This gives it in effect two pupils in each eye, one suited for seeing in the eye and the other for seeing in the water. The fish is in the habit of swimming at the surface with its head sometimes above, sometimes below, the water's line. The common whirligig beetle (gyrinus), which spends its time circling round and round on the surface of the water, has eyes modified in exactly the same manner, evidently for a similar purpose. These eyes are compound; the simple eyes which are found in most insects along with the compound are entirely wanting in the whirligig.

Elephants in Ceylon.  
The elephant shooting of Ceylon is the best in the world, and the easiest attainable. The Ceylon elephants have been carefully preserved by the government, which regulates the shooting according to the number of animals. The idea is to keep a constant herd of 2,000, and when there is not an excess of this number the shooting is forbidden absolutely.

Carrier Pigeons Armed.  
In China carrier pigeons are protected from birds of prey by apparatus consisting of bamboo tubes fastened to the birds' bodies. As the pigeon flies the action of the air passing through the tubes produces a shrill whistling sound, which keeps the birds of prey at a distance.

### MENU FOR TUESDAY.

As we sit in the twilight gray and tender  
Is its shadowy light less dear  
When we know that the work of the day is  
over  
And the stars are drawing near?—Anon.

**BREAKFAST.**  
Milk.  
Omelet of Eggs. Water Cream.  
Toast. Marmalade.  
Coffee.

**LUNCHEON.**  
Spiced Veal. Lettuce Sandwiches.  
Stewed Peaches. Rolls. Tea.

**DINNER.**  
Cham Broth.  
Escaloped Tongue.  
New Potatoes, Creamed. Cauliflower.  
Lettuce and Tomato Salad.  
Cheese. Omelet. Raisins.  
Lemon Rice Pudding.

**ESCALOPED TONGUE.**—Chop some cold tongue, not too fine, and have for each pint one tablespoonful of onion juice, one teaspoonful of chopped parsley, one teaspoonful of salt, one teaspoonful of capers, one cupful of bread crumbs, half a cupful of stock and three tablespoonfuls of butter. Butter the escalop dish and cover the bottom with bread crumbs. Put in the tongue, which has been mixed with the parsley, capers, salt and pepper and add the stock, in which has been mixed the onion juice. Put part of butter on dish with remainder of bread crumbs and bits of butter here and there. Bake 30 minutes and serve hot.

## OSHKOSH DEFEATED JANESVILLE TODAY

### A POOR EXHIBITION OF THE NATIONAL GAME.

Nine From the Sawdust City Carries Off the Honors By a Score of 10 to 2—A Disappointed Crowd at Athletic Park this Morning—A Small Audience.

Fortunately there was a very small audience at the ball game this morning, and those who stayed to the finish and missed their dinners were about as disgusted a lot as ever wended their way from Athletic park.

The game did not commence until 10:45 and was slow all the way through. Some of the members of the Y. M. C. A. nine vied with each other to see which could play the poorest, and it was the worst exhibition of the national game they have given this season.

The Oshkosh club put in its poorest pitcher and he gave nine men bases on balls; still the Y. M. C. A.'s were unable to score but two runs. Benny Carle caught for Oshkosh and it was as easy for him to throw the Y. M. C. A.'s out at second as it was for the Oshkosh players to steal on McMasters. In fact his catching and throwing was the feature of the game, if one could be discovered.

There were two home run hits over left field fence, one by Brunner and one by Morrissey, which was very close to a foul.

But here is a synopsis—the game is not deserving of a full score:

	Runs.	Hits.	Errors.
Oshkosh	10	8	2
Y. M. C. A.	2	5	10

Score by innings:  
1 2 3 4 5 6 7 8 9  
Oshkosh..... 0 0 2 0 0 0 0 0 0  
Y. M. C. A..... 0 0 0 1 0 1 0 0 0  
Bases on called balls—Off Brunner, 9; off Fisher, 2. Hit by pitched ball—Brunner, 9; McMasters, 2. Struck out—Oshkosh, 5; Y. M. C. A., 3. Passed balls—McMasters, 2; Carle, 1. Wild pitches—Brunner, 2.  
Umpire—McCarthy.

### LATE HAPPENINGS AT FOOTVILLE.

Hot Weather Damages New Seeding and Late Tobacco—Times Good.

Footville, Sept. 4.—The continued hot and dry weather has greatly damaged new seeding, as well as late tobacco and pastures. M. E. Owen went to Janesville Tuesday, returning Thursday noon. Miss Jessie Silverthorn returned from Edgerton Thursday, after spending a few days with friends. Footville is enjoying the good times. Strang & Owen are doing more business than ever, and help about our village has not been so scarce in many a day. School time is drawing near and we will soon lose some of our young people, some as teachers and some as pupils, going to Janesville and Evansville. Mr. and Mrs. E. S. Sterns and Mrs. Andrew Bailey attended the wedding of Prof. A. G. Henry at Newark Wednesday evening. Village school opens Monday, September 4th. We look forward to a good school this year. R. W. Strong is again seen on our streets, after a sickness of three months. Services at the M. E. church Sunday were well attended. Ira Fisher went to Chicago Thursday. Owen & Pepper have put a fine new black tin roof on their tobacco shed. The firm of Logan, Buck & Silverthorn are turning out some good kodak pictures, try them.

His Heart Is on the Right Side.  
Physicians in a hospital at Omaha discovered that the heart of John M. Murphy, one of the inmates, lies on the right instead of the left side of his body. Operations were at once begun to transfer it to its proper place. Murphy is accustomed to handling heavy burdens and two years ago he observed some startling change going on around his heart. The organ seemed to be slowly crowded toward his right side. In the course of a year he found his heart beating nearly in the center of his body, and then it passed distinctly over to the right side. The doctors performed an operation. They found his heart had been crowded out of place as the result of the formation of pus in the natural heart cavity. This was drawn off, a section of the ribs taken out and the delicate organ pressed towards the left. It could not be moved much, but the surgeons think it will gradually return to its accustomed place. It is believed to be the only case of its kind in medical history.

Largest American Flag.  
George Main of this city in 1855 or '56 made the biggest specimen of the Stars and Stripes ever manufactured, which was hung to the breeze at a reception to President Franklin Pierce. The democrats of Concord were bound to "beat the record," and hired Mr. Main to make for them a flag 120 feet long by 90 feet wide, containing 1,200 yards of bunting. It was hung across Main street, between the state house yard and a building on whose site the New Hampshire savings bank block now stands. Mr. Main made \$5,000 worth of flags for the Pierce and Buchanan campaigns.—Concord Patriot.

Clever Wasps.  
Among the insects whose proceedings sometimes suggest the thought that they are guided by something closely akin to reason are the solitary wasps. These wasps kill caterpillars, spiders and other insects by stinging them, and then bury the victims in burrows containing their own eggs, thus furnishing food for their larvae as they hatch out. The operation of making and closing up the burrows is a curious and interesting one to watch particularly when the wasps use—as they occasionally do—a small stone to pound down the earth.

## FIRM OUTGROWS ITS PRESENT QUARTERS

### NEW DOTY COMPANY MAKING EXTENSIVE IMPROVEMENTS

Crew of Fourteen C., M. & St. P. Railway Employees Engaged in Driving Piles for a New Building—Machine Shop Will Be Enlarged—Other Changes.

The New Doty Manufacturing Company is engaged in making extensive improvements in their Main street plant, their business having increased to such an extent of late that they have outgrown their present quarters.

For several days a crew of fourteen C. M. and St. Paul Railway employees have been engaged in driving piles on the river bank, west of the shops for a new building. This structure when completed will be about twenty-two feet in width and seventy feet in length, and will be used for the storage of patterns. The work of piling has been nearly finished and the construction of the building will be commenced at once and pushed along as rapidly as possible. The machine shop has been found inadequate for the increased business also, and will be enlarged by adding to it the pattern apartment, and the two rooms will be thrown into one large one which will be a great improvement.

The company has lately added a quantity of the latest improved machinery for carrying on their work, and the purchase of several more machines is contemplated. The largest of these already bought is a planer, weighing over five tons. It was purchased from the Cincinnati Planer company of Cincinnati, Ohio, and expected to arrive every day. A new lathe of the latest pattern is also on the way.

The company report a good season's trade and the management says the prospects for a record-breaking year's business were never better.

# WANTED— MEN FOR THE ARMY.

BY CAPTAIN EMMONS K. BRADLAW.

If there yet remain any belligerent young Americans who have not had that chance to fight for their country their martial spirit longs for, they should step to the front. Uncle Sam's recruiting officers will be glad to see them. Something like 13,000 men are wanted at once.

There need be no fear of languishing in home camp or barracks. The youth who wants to reach the firing line in the shortest possible time can be accommodated. Recruits are wanted for ten new volunteer regiments. These organizations are not for display or parade. As soon as the ranks are full these regiments will be shipped off to the Philippines where General Otis has some large sized jobs awaiting them.

All summer long the recruiting for the ten new regiments which were authorized last spring has gone on. This is now practically completed, and the new soldiers will be sent to the front as soon as there are empty transports to take them.

Now the task is to be begun all over again. Thirteen thousand more men, including officers, are invited to wear khaki uniforms and chase the little

How  
Uncle Sam Is  
Raising a Great Army  
To Crush the  
Filipinos

job, and when you are old you can tell your children how you helped lick the Philippines back in '99.

While men who never handled a gun in their lives will be accepted as recruits in the ranks, the selection of the 500 and more officers for the various regiments is being made more carefully. The officers who will command these new regiments are almost without exception men who have seen more or less active military service.

The colonels, for instance, are nearly all veterans. Colonel Hardin of the new Twenty-ninth volunteers was a captain in the Seventeenth regular infantry. He has fought Indians. Colonel Pettit of the Thirty-first was also a captain in the regular army. He saw service in Cuba last summer. Colonel Craig of the Thirty-second was a captain in the regular cavalry. He served through the Porto Rico campaign.

That the government means business is apparent from the fact that not one of the new colonels is taken from the number of excellent and well tried officers now in the Philippines. All the lieutenant colonels, also, with the ex-

ception of Captain Beacon, are now in this country. This was done because of the length of time it would take to get officers home from the Philippines to recruit and discipline their men.

The transport facilities of the army now are adequate to the movements of the regiments now in the last stages of formation and these additional ten regiments, so that the president and secretary of war hope to get 30,170 new men in the field during October in time for a vigorous and successful campaign in the favoring weather of the fall. This force, it is believed, will be sufficient.

In enlisting the ten regiments provided in the July call, it has been found that there is a large percentage of re-enlistments.

The result of this in the work of drilling the new men and fitting them for the life of the camp and field is very appreciably favorable.

Recruiting stations are now open in almost every large city in the country, and Uncle Sam is putting out some of those familiar lithographs announcing his desire for able bodied men to bear arms. In a few months we will have in uniform more than 95,000 men, and if something does not happen to Mr. Aguinaldo before next Christmas the cable between the war department at Washington and the headquarters of General Otis in the Philippines will

be a busy one. But you will have an extensive ocean journey free of expense and will see much of a land which will look very strange and queer to your untraveled eyes. You will have plenty of excitement, and the change may do you good, providing you do not contract a fever or get tangled up with any of the numerous tropical diseases which are common in the country around Manila. If you survive and get back home in the course of a year or two,

reception of Captain Beacon, are now in this country. This was done because of the length of time it would take to get officers home from the Philippines to recruit and discipline their men.

Recruiting stations are now open in almost every large city in the country, and Uncle Sam is putting out some of those familiar lithographs announcing his desire for able bodied men to bear arms. be a busy one. But you will have an extensive ocean journey free of expense and will see much of a land which will look very strange and queer to your untraveled eyes. You will have plenty of excitement, and the change may do you good, providing you do not contract a fever or get tangled up with any of the numerous tropical diseases which are common in the country around Manila. If you survive and get back home in the course of a year or two,

reception of Captain Beacon, are now in this country. This was done because of the length of time it would take to get officers home from the Philippines to recruit and discipline their men.

The transport facilities of the army now are adequate to the movements of the regiments now in the last stages of formation and these additional ten regiments, so that the president and secretary of war hope to get 30,170 new men in the field during October in time for a vigorous and successful campaign in the favoring weather of the fall. This force, it is believed, will be sufficient.

In enlisting the ten regiments provided in the July call, it has been found that there is a large percentage of re-enlistments.

The result of this in the work of drilling the new men and fitting them for the life of the camp and field is very appreciably favorable.

## Nothing But Facts.

No Deception Used in Talking About Morrow's Kid-ne-oids.

The Arguments in Their Favor Come From People Who Have Tested Their Merits.

There is no deception in anything we publish about Morrow's Kid-ne-oids. All our statements are facts and are from people right here in Wisconsin. People in all walks of life are using and recommending Kid-ne-oids because they cure backache, nervousness, sleeplessness and general debility in cases where other remedies have failed.

Mrs. P. Jenkins, 618 Broad street, Beloit, Wisc., says: "I take pleasure in recommending Morrow's Kid-ne-oids to any person suffering from kidney backache. A sample of Kid-ne-oids used according to directions, removed the pain from the small of my back and I have not been troubled with backache since."

Morrow's Kid-ne-oids are not pills, but yellow tablets and sell at fifty cents a box at all drug stores and at The People's Drug Store.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, Ohio.

# LATE NEWS BY TELEGRAPH.

## U. S. TRANSPORT IS ASHORE.

The Morgan City, Bound for Manila, Strikes a Rock.

Kobe, Japan, Sept. 4.—The United States transport Morgan City has been wrecked near a small town called Onomichi, which is located on the inland sea. The vessel was bound for Manila and had nearly 1,000 recruits on board for the American campaign in the Philippines. An urgent dispatch was received here which asked that provisions be sent immediately to the point where the troops were landed from the ship. The message said that the vessel had struck a rock and had been run aground in order that the lives of the soldiers might be saved. No casualties were reported. Provisions are being hurried from this city to the scene of the accident.

San Francisco, Cal., Sept. 4.—The transport Morgan City, bound for Manila, with 724 recruits, is aground near Nagasaki, Japan. The accident is believed by officers here to have been due to a typhoon.

Washington, Sept. 4.—The quarter-master-general of the army received the following dispatch from Nagasaki, Japan, dated Saturday, stating that one of the government transports had gone aground:

"Morgan City (transport) struck, made water, was beached astern eastern entrance northern channel inland sea; all safe; damage unknown; particulars later."

## TO LEAVE GIBRALTAR SEPT. 15.

Dewey Notifies Navy Department of His Plans—Sampson and Evans.

Washington, Sept. 4.—Rear Admiral Sampson, with his Squadron, will leave Philadelphia Sept. 11 for New York, where he will meet Capt. Robley D. Evans, the naval representative for the Dewey celebration, and the committee on arrangements.

Admiral Dewey has notified the navy department that he will remain at Gibraltar until the middle of the month, when he will sail for New York. At Gibraltar he will meet the training-ship Alliance, which is due there about Sept. 5.

## Anxiety for Monongahela.

Norfolk, Va., Sept. 5.—The United States training-ship Monongahela had not up to 2 o'clock this morning been sighted by the observer at Cape Henry. When the ship was some days since reported to be overdue naval officers expressed the belief that she would shortly arrive, and they professed to feel no anxiety over her non-arrival. This confidence is no longer felt by all and there are many who are growing anxious because the vessel has not come in. An official last night expressed privately to the reporter his fear that the training-ship may have encountered the hurricane and may never be heard from.

## Indian Crops Aided by Rain.

London, Sept. 4.—Immediate anxiety regarding the crops in the central provinces of India has been removed by a heavy rain sweeping in from the Orissa coast and extending into the Baghelkhand district and the eastern half of the northwestern provinces and of Oudh. Elsewhere the rainfall is insufficient and rain is urgently needed to save standing crops in Madras, Bombay, Rajpootar, most of the Punjab and the western section of the northwestern provinces and of Oudh.

## Pope Reported Against Dreyfus.

London, Sept. 4.—The Rome correspondent of the Central News says that he has interviewed many of the vatican officials, including Monsignors Piffieri and Angeli, and learns that the pope and a number of the high dignitaries are opposed to Dreyfus. He adds that the vatican will not issue instructions to the French clergy in regard to their attitude when the Rennes court martial delivers its verdict.

## Fever Scare in Indianapolis.

Indianapolis, Ind., Sept. 4.—The concern which existed among the employees of the Union Station over the presence last week of Henry Wagoner, the Knox county yellow fever victim, was added to Sunday by the remark of Secretary Hurty of the state board of health that conditions in Indiana are favorable to the spread of the fever. A number of people here were exposed.

## THE DISTINGUISHED VISITOR.

usually arrives on American shores with a preconceived notion of what our liquors are like, but after sampling

Old Underoof Rye

once or twice he begins to speak of it as the finest whiskey that ever passed his lips. It is put up in characteristic square bottles and may be found all over North America. By being stored for years in heavily charred oak barrels its mellowness and flavor is greatly enriched. If there is merit in fine old whiskeys, certainly Old Underoof has it.

## TWO CHARGED WITH MURDER.

Mysterious Crime at Chicago. May Be Cleared Up.

Chicago, Sept. 4.—Richard Honeck and Herman Hundhausen, 22 and 20 years old, respectively, are prisoners at the Warren avenue police station, charged with the assassination Saturday night of Walter T. Koeller, 20 years old, in his room in the home of Mrs. L. M. Alexander, 880 1/2 Fulton street, at 11:15 o'clock.

Richard Honeck, 22 years old, a railway telegraph operator, is the son of Henry Honeck, a wagon-maker and dealer in agricultural implements at Hermann, Mo., and Herman Hundhausen, 20 years of age, is the son of Col. Robert Hundhausen, a veteran of the civil war and proprietor of a vineyard near Hermann, Mo.

While it seems beyond doubt that these young men are the ones who, called at the home of Mrs. Alexander Saturday night, and stabbed Walter Koeller to death, the motive for the crime is a mystery. The two suspects and the victim all came originally from Hermann, Mo., and Hundhausen and Koeller were students together at the Northern Illinois Normal school and Dixon Business college.

Honeck and George Koeller, the brother of the murdered man, were formerly students together at the same school. It seems almost certain that the murder was the outcome of former events in Hermann, Mo., and the indications point to the probability that Honeck and Hundhausen left Dixon Wednesday night with the express purpose of killing Koeller, but the reason for their purpose is not apparent.

## One Killed and Many Hurt.

Philadelphia, Pa., Sept. 4.—A train on the Camden, Gloucester & Greenock branch of the Philadelphia & Reading railroad struck a crowded trolley car of the Camden, Gloucester & Woodbury Trolley company at Gloucester City, N. J., Sunday night at 7 o'clock. One woman was killed, five persons were seriously hurt, and fifteen received cuts and bruises, and a child who was said to have been in the trolley car is missing.

## Russia May Seize British India.

Berlin, Sept. 4.—Although the Transvaal crisis is still in abeyance, military authorities here already are discussing war in South Africa as an undoubted eventuality. The semi-official Marine Review has an article by the well-known Major Wachs, arguing in favor of the possibility of Russia seizing on a Transvaal war as an opportunity to push toward British India.

## Life to Be Spent in Prison.

San Francisco, Cal., Sept. 4.—Private Thomas McVeigh of company G, First Wyoming volunteers, was removed from the Presidio guardhouse to Alcatraz island to serve a life in prison, his sentence of death having been commuted by President McKinley. McVeigh tried to kill his superior officer, Capt. D. C. Wrighter, of company G, at Manila.

## Joy at Laborer's Recovery.

Antwerp, Sept. 4.—The annual assembly of Dutch magistrates and jurists has sent to Maitre Labori, counsel for Capt. Dreyfus, a telegram expressing sympathy in his struggle for truth and joy at his recovery.

Glacier Ice.

An Alpine glacier, near Briancon, is now regularly operated as an ice quarry, the blocks being cut and conveyed over an overhead cableway to a convenient place for shipment by rail to Paris, there to be used in the cafes and hotels of the metropolis.

## SILVER MEN HEAR ALTGELD.

Ex-Governor Addresses the Bimetallists of New England.

Providence, R. I., Sept. 4.—The New England Bimetallic league had the first open-air meeting in its series of three big demonstrations at Crescent park Sunday afternoon. Chairman George W. Greene of the league called the meeting to order and introduced Col. Drinkwater of Massachusetts as presiding officer. Colonel Drinkwater made a few brief remarks and then presented Homer S. Cummings of Connecticut, secretary of the league, who explained the scope and plans of the organization.

Ex-Gov. Altgeld of Illinois was the star at the meeting. He explained the silver question from the bimetallic standpoint. He declared that the interests of east and west are identical; that whatever bears hard on the factory operatives of the east affects likewise the farm toilers of the west; that the government monetary policy affects all alike.

Judge Tarvin of Kentucky made a humorous address severely scoring ex-President Cleveland, ex-Secretary Carlisle, Senator Lindsay and President McKinley for their attitude on the silver question.

Congressman Lentz of Ohio discussed in detail the quantitative theory of money and the necessity of using not only all the gold, but also all the silver of the world, and suggested that the question would not be how little silver we should use, but rather what else besides all the gold and silver. In addition to these remarks Mr. Lentz opposed imperialism and pleaded for the rights of the Filipinos.

## Fire Ravages Pin Conning.

Bay City, Mich., Sept. 4.—For the second time in two years the village of Pin Conning, on the Mackinaw division of the Michigan Central, twenty miles north of Bay City, was swept by a disastrous fire. The business section of the town was practically wiped out Sunday afternoon. The structures destroyed included thirteen business buildings and twenty-five dwellings. Jennings' mill, Cain's hotel and the Michigan Central freight depot escaped. Scores of people are homeless and penniless, having lost their all. The total loss will run up to about \$75,000, with only a partial insurance.

## German Societies Celebrate.

Indianapolis, Ind., Sept. 4.—Fifty-two German societies of this city, with 500 guests from outside points, Sunday celebrated "German day." There was a street parade in the forenoon of 3,000 members of the societies. Dr. N. J. Elshner, president of the Cincinnati College of Music, was the German orator of the day in the elaborate exercises at Germania park, where 5,000 persons were gathered. Senator Fairbanks delivered the English oration, in the course of which he spoke in high terms of the value of the services extended the government of the United States through many years of its history by its citizens of German birth and parentage.

## Blackburn Not a Sick Man.

Louisville, Ky., Sept. 4.—The report that former State Senator Blackburn is broken in health as a result of his efforts in behalf of Goebel is untrue. When seen last night he declared that he had never felt better.

## Mrs. Pinkham's Medicine Made

a New Woman of Mrs. Kuhn.

(LETTER TO MRS. PINKHAM NO. 64,992)

"DEAR MRS. PINKHAM—I think it is my duty to write to you expressing my sincere gratitude for the wonderful relief I have experienced by the use of Lydia E. Pinkham's Vegetable Compound. I tried different doctors, also different kinds of medicine. I would feel better at times, then would be as bad as ever.

"For eight years I was a great sufferer. I had falling of the womb and was in such misery at my monthly periods I could not work but a little before I would have to lie down. Your medicine has made a new woman of me. I can now work all day and not get tired. I thank you for what you have done for me. I shall always praise your medicine to all suffering women."

—MRS. E. E. KUHN, GERMANS, OHIO.

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and used two packages of your Sensitive Wash, also some of the Liver Pills, and I can say that your remedies will do all that you claim for them. Before taking your remedies I was very bad with womb trouble, was nervous, had no ambition, could not sleep, and my food seemed to do me no good. Now I am well, and your medicine has cured me. I will gladly recommend your medicine to every one wherever I go."

—MRS. M. L. SHEARS, GUN MARSH, MICH.

**"EUREKA" BREAD....**  
As cheap as you can bake bread at home, and you get the choicest article ever encased in crusts. Eureka Bread is made scientifically, it is always the same, keeps moist, and has that substance so seldom found in bakery breads. Our bakery is modern in every way. That is partly the reason for our turning out such excellent goods. Wagons pass your house daily, ask for card. Your grocer has our bread.

## Economical Coal Consumers

Will Be Popular This Year.

Coal will be high—it's high now—but the chances are it will go still higher. The Stoves that will give the greatest heat on the least coal will be the only means of cutting down the coal bills. Our list of Heaters is economical. This point is strong on any one of them.

## A Pointer....

### FOR LABOR DAY

So long as the workers' wages are paid regularly, there should be no more trouble about paying cash for groceries than the monthly settlements; and besides you will find much satisfaction, not only in the thought that the regular 30 day outlay for "dead horse", so to speak, is not staring you in the face, but the

**Saving of From 10 to 20  
Per Cent. in the Purchase  
Of the Eatables.**

In buying for cash you are soon a week or a month ahead on your savings, while on the other hand you are behind that much.

**The Saving of 10 Per Cent.  
On Grocery Bills**

means the same to you as an advance in wages from \$1.50 to \$1.65 per day. It will pay you to keep posted on grocery prices at this store; there is an advantage in buying at a cash store.
